

EMMANUEL COLLEGE - NEW AUDITORIUM

📍 AREA

- 👤 Client Name: Emmanuel Education Ltd
- 📅 Status: Completed June 2012
- 👤 Construct Only
- 💰 Value: \$6.7m + GST
- 📋 Category: Education/Hospitality & Entertainment

Project Details

Try constructing a new 469 seat Auditorium sandwiched between two existing two storey fully functioning classrooms and performing arts building, a 6 meter high retaining wall and college chapel with access in and out of the site via a single lane one way road.

Following the completion of a previous stage, Emmanuel College appointed Alder again as their preferred Builder to construct, this time around, their flagship project being a state of the art Auditorium.

Works Undertaken

Some of the key components of this project were:

- Full fly tower with electrical operation of all hoisting and lighting bars
- State of the art audio visual system that has been designed to accommodate future expansion
- Operable orchestra lift which maximises flexibility usage in theatre, lecture, stage extension and orchestra modes
- In ground 60,000L rainwater storage tank located beneath the seating area that is used to provide flush water to the Auditorium's amenities
- Basement area includes toilets and provides storage for props, costumes, dressing rooms, and dance class facilities
- Three (3) sound proof rooms are located on the 1st floor that are utilised for music tuition for the students along with a theatre managers office
- Ground retention engineering solutions
- Feature timber Tas myrtle acoustic wall cladding and ceiling deflection panels
