Project Details

Yet again Emmanuel College engaged Alder to help design and construct their latest addition to the outstanding campus being the Little E's preschool classes.

This involved demolition of 3 existing GLA's underneath 4 active classrooms and converting into two new Preschool rooms including the addition of kitchen facility's, office, staff room, toilets, PWD's, external play equipment and landscaping all to meet the exceptionally strict new government guide lines for child care for children under 5 year olds.

Works were completed and handed over to the school in November 2011 then 4 weeks of government accreditation and certification was completed with it all complying with flying colours.

Works Undertaken

Some of the key components of this project were:

- Complying with government child care guidelines
- Soft fall to all external play areas
- Introduction of a sewer system and connecting to existing system 120m away
- Air conditioning and heat bank system introduced to all rooms
- Feature CFC expressed joint wall panelling
- All amenities have to cater for little people, i.e. junior toilet pans and basins
- Design and construct all hardscaping to the external play areas including wobbly walk and sandpit
- Shade sails to comply with the no sun rules for children out doors
