

JUPITERS CASINO REFURBISHMENT WORKS

📍 BROADBEACH

- 👤 Client Name: Echo Entertainment
- 📅 Status: Completed April 2012
- 👤 Construct Only
- 💰 Value: \$790k + GST
- 📋 Category: Building/Hospitality Entertainment

Project Details

Alder were appointed by Echo Entertainment to take on this challenging major refurbishment project that was predominately located within the casino's main entry foyer, open atrium area, adjacent restaurants and the lift lobby.

The greatest challenges with this project were to ensure zero harm resulted to the casino's patrons and workers and minimal impact occurred on the casino's operations whilst still delivering it on time and to the quality required in this five (5) star entertainment precinct. Easier said than done considering how much foot traffic occurs in the aforementioned key patron areas, which are all open 24/7!

Alder are proud of the fact that despite the aforementioned challenges, works were completed on time, to the complete satisfaction of our client and more importantly without incident to the casino's patrons and workers.

Works Undertaken

Some of the key components of this project were:

- The entry foyer and associated passageways were treated with extensive use of milkwood veneer cladding that was laid over the out-dated timber veneer cladding
- The surface of all off form concrete panels within the atrium area lobby were all painted to completely transform and update the look and feel of this area
- The ground level lift lobby was completely refurbished with new imported stone
- Extensive refurbishment works were undertaken within Charters Towers and Andiamos Restaurants that also included some design and construct elements
