

WESTERN CORRIDOR TRADE TRAINING CENTRE

📍 SPRINGWOOD

- 👤 Client Name: Queensland Government
- 📅 Status: Completed December 2013
- 👤 Design & Construct
- 💰 Value: \$3.52m + GST
- 📋 Category: Civil / Education

Project Details

Alder Constructions were engaged to design and construct a brand new trade training centre in Springfield, in the high growth western corridor of Brisbane. The Trade Training Centre is designed to teach students in the trades of automotive, building and construction, and engineering / metalwork.

The facilities and the equipment provided to the students are second to none, providing the students the best opportunity to combine their theoretical subjects and practical learning. The finished building was completed on time and on budget and far exceeded the expectations of the client. The equipment and items within the facility are some of the best available and allow the students to maximise their learning opportunities.

Works Undertaken

Some of the key components of this project were:

- Fully equipped automotive workshop including car hoists, wheel balancing equipment, benches and specific mechanical workspaces
- Fully equipped engineering workshop including metal lathes, welding equipment and bays, and the latest computer CNC milling machines
- Fully equipped construction workshop including building, construction and carpentry workspaces and tools, an outdoor construction space and dust extraction systems
- Air compression system throughout the whole facility for the use in all trade classrooms
- Computer equipped teaching classrooms using the latest equipment and technology
- Reception and general administration area
- Staff rooms and facilities
- Student facilities, meal rooms and space
- Quality landscaping finishes including stormwater treatment via bio-retention basins
- All finishes, fittings and items completed to the highest Queensland Government compliance standards
- 15 staff car park spaces
